INTERNSHIP

Shopee AI Search Product Manager Intern - Led AI Search user experience optimization and drove the expansion and launch of core capabilities including Multimodal Search, Voice Search, and LLM Filter across multiple regions, covering competitive research, requirements analysis, product design, and launch validation, with key experiments achieving GMV +1.2% and Ads Rev +4.4%. - Optimized recommendation strategies and interaction designs for scenarios including trending event search, insufficient image search results, and related search recommendations on results pages, iterated continuously through A/B testing, with key experiments achieving CTR +0.1% and GMV per user +0.8%. - Addressed differentiated requirements across Southeast Asian markets, identifying variations in fulfillment, local product prioritization, and compliance, developing tailored adaptation plans for each market, and coordinating local, engineering, and strategy teams to drive complete execution from requirements through launch validation.	Jun. 2026-Sep. 2026 Beijing, China
Baidu AI Strategy Intern - Analyzed ByteDance's Seedance2.0/Seedream5.0 models and related AI applications including Dreamina AI and Pippit AI, benchmarking user growth and competitive positioning. Identified Dreamina AI's 2.7M DAU (2.25x competitors) and MyParallelStory APP's 1.9M DAU leadership among virtual companion products, validating ByteDance's "Tool + Social" strategy and providing strategic insights for Baidu's AI Agent efficiency improvement. - Researched the AI avatar industry covering 10+ competing products across work-oriented and social-oriented scenarios, and proposed 5 business recommendations including optimizing medical agent distribution and creating differentiated education avatar scenarios based on competitor analysis of Baidu's Wenxin Intelligent Agent Platform. - Identified high-value creator segments with 1,000 to 10,000 followers among Douyin's 50M+ daily active creators, proposed a lightweight Agent video editing tool solution based on creator behavior analysis and high-frequency content production needs, and evaluated commercialization feasibility through cost modeling to support project initiation decisions.	Feb. 2026-May. 2026 Beijing, China
IPSOS Strategic Consulting Intern - Evaluated the customer management systems of 4 automotive brands, including Mercedes-Benz and BMW; systematically reviewed the product portfolio (brand insurance, service packages, etc.) and digital management system, providing data support and business insights for subsequent optimization. - Analyzed parameter configurations for 16 HarmonyOS and non-HarmonyOS vehicles; generated a structured analysis brief to provide competitive insights for vehicle owner forums, supporting the development of product strategies for the client. - Conducted Key Opinion Consumer (KOC) marketing strategy research on 18 vehicle models and examined how these strategies drive sales, producing a strategy recommendation deck for the client.	Nov. 2025-Feb. 2026 Beijing, China
SynTao Consulting Intern - Developed core chapters of ESG reports for 4 leading companies across manufacturing, ICT, and renewable energy sectors, transforming core research findings into disclosures aligned with international standards. - Conducted a focused study on "Information Security and Technology Ethics", identifying the industry's core issues and regulatory trends through desk research, competitive analysis, and regulatory interpretation; analyzed governance approaches of five leading tech companies, including Tencent, Alibaba, and ByteDance. - Created the 2024 ESG/CSR awards calendar, identifying, screening, and organizing key information from hundreds of sources into a structured checklist; this work served as an internal tool to optimize the team's strategic planning.	Mar. 2025-Jul. 2025 Beijing, China

PROJECT

AI Video Editing App for Mid-Tier Creators Product Lead - Led 0-to-1 product development, translating creator needs into MVP requirements and core features for an AI-assisted lightweight video editor. - Validated the MVP with a Xiaohongshu creator with 2,000+ followers, optimizing editing workflows and improving content creation efficiency by 17%.	Mar. 2026-May. 2026 Beijing, China
Invisible Poverty in Elderly Care Research Lead - Conducted five-month fieldwork with Beijing Hongfeng Volunteer Organization and semi-structured interviews with 32 elderly parents who had lost their only child, examining challenges in healthcare access, housing security, and eldercare support. - Translated qualitative insights into actionable recommendations for medical accompaniment, emergency support, and daily care; coined "invisible poverty" and helped redesign volunteer services supporting 30 families and 80+ future beneficiaries.	Nov. 2024-May. 2025 Beijing, China
